Portfolio: hassanalikhandev.netlify.app

---

## Professional Summary

Front-end developer with practical experience in React.js, JavaScript, HTML, and CSS, skilled in component-based architecture and state management using React Hooks. Adept at building interactive, maintainable web applications and contributing effectively to team projects. Seeking a React Developer Intern role to apply strong frontend skills and deliver functional, user-focused solutions.

---

## Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, JSX

State Management: React Hooks (useState, useEffect)

Routing & APIs: React Router, REST API, Fetch API

UI & Styling: CSS animations, dynamic rendering, basic styling

Tools: VS Code, Git, Chrome DevTools

Professional Attributes: Problem-solving, debugging, writing clean and maintainable code

---

## Key Projects

### Weather App (React.js, JavaScript)

Built an interactive weather forecasting app with live API data integration.

Implemented efficient state management using React Hooks.

Ensured functional UI updates and smooth user interaction.

### To-Do App (React.js, JavaScript)

Developed a task management application with add, edit, and delete functionalities.

Applied component-based architecture for reusability and maintainability.

Focused on delivering a clean, functional, and user-friendly interface.

---

## Education

BS Computer Science (In Progress) – Government Graduate College Asghar Mall, Rawalpindi

---

### Strengths & Attributes

Solid understanding of React.js and frontend development principles.

Strong attention to clean, maintainable, and functional code.

Quick learner with ability to adapt and contribute effectively in team environments.

Motivated and proactive problem-solver, focused on delivering results.

---

### Achievements

Completed 4+ months of hands-on React.js training and project-based learning.

Built multiple projects to demonstrate practical frontend development capabilities.

Continuously upgrading skills in JavaScript and React ecosystem.
