Expense Tracker: <https://expense-tracker-1580.netlify.app/>

PROFESSIONAL SUMMARY

Performance-driven Full-Stack / MERN Developer with hands-on experience engineering secure, scalable web applications using React.js, Express.js, Node.js, MongoDB, and RESTful APIs. Specialized in implementing custom backend authentication (JWT/session security), state management with Redux Toolkit, dynamic UI development, and AI-assisted workflow optimization. Seeking a MERN / Software Engineering Intern role to build reliable, high-performance web systems.

TECHNICAL SKILLS

- **Languages & Core:** JavaScript (ES6+), TypeScript (Basic), HTML5, CSS3, SQL (Basic)
 - **Frontend Development:** React.js, Redux Toolkit, React Hooks, Tailwind CSS, Responsive Design, Context API
 - **Backend & Database:** Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, Custom Auth (JWT / Password Hashing), CORS Handling
 - **Tools & Platforms:** Git, GitHub, Postman, Vite, Netlify, Vercel, Chrome DevTools, Prompt Engineering, Figma
-

FULL-STACK & WEB ENGINEERING PROJECTS

Full-Stack Expense Tracker & Financial Manager | *Node.js, Express.js, React.js, MongoDB, Tailwind CSS*

Live Demo: <https://expense-tracker-1580.netlify.app/>

- Architected a complete full-stack web application to manage personal financial logs, income streams, and transaction categorizations.
- Engineered custom backend authentication utilizing secure password hashing and token-based route protection to ensure data privacy.
- Designed relational-style MongoDB schemas using Mongoose ORM to enable accurate financial aggregations and user data integrity.
- Integrated RESTful API endpoints with dynamic frontend state updates, real-time balance calculations, and comprehensive error handling.

Scentra – E-Commerce Platform | *React.js, Redux Toolkit, Tailwind CSS, REST API*

Live Demo: <https://scentra-dead-final.netlify.app/>

- Developed a responsive e-commerce web application featuring dynamic product search, category filtering, and client-side sorting.
- Implemented global cart state management using Redux Toolkit to handle multi-item operations, price calculations, and checkout flows.

Responsive Enterprise Admin Dashboard | *React.js, Tailwind CSS, REST API*

Live Demo: <https://admin-dashboard-1580.netlify.app/>

- Built an interactive dashboard UI supporting dark/light theme switching, responsive sidebar layouts, and data visualizations.
- Handled mock API integration and role-based UI controls to simulate real-world admin workflows and metrics monitoring.

CERTIFICATIONS & SPECIALIZED TRAINING

Google AI Essentials Specialization | *Coursera (Google)*

Verify Link: <https://coursera.org/verify/specialization/MO0UL5GK5PJT>

- Mastered prompt engineering techniques, responsible AI practices, and workflow automation to accelerate full-stack development tasks.

Google UX Design Professional Certificate | *Coursera (Google)*

Verify Link: <https://coursera.org/verify/professional-cert/A4SSNI86QAUX>

- Completed an 8-course credential covering full-cycle UX research, user personas, low/high-fidelity prototyping in Figma, and usability testing.

EDUCATION

Bachelor of Science in Computer Science (BS CS) | *In Progress*

Government Graduate College Asghar Mall (Affiliated with University of the Punjab),
Rawalpindi
