PROFESSIONAL SUMMARY

MERN Stack Developer with practical experience in building responsive web applications using React.js, Tailwind CSS, and REST API integrations. Grounded in component-based architecture, state management (Redux Toolkit), user interface design, and modern web development workflows. Proven ability to design UI components, handle complex application state, and integrate backend services. Seeking a Frontend / MERN Developer Intern role.

CERTIFICATIONS

Google UX Design Professional Certificate

Coursera (Aug 2026)

Verification URL: <https://coursera.org/verify/professional-cert/A4SSNI86QAUX>

- Earned an 8-course professional credential covering end-to-end UX research, user persona creation, wireframing, low/high-fidelity prototyping in Figma, and usability testing.

Google AI Essentials Specialization

Coursera (Aug 2026)

Verification URL: <https://coursera.org/verify/specialization/MO0UL5GK5PJT>

- Completed a 5-course specialization focusing on practical prompt engineering techniques, responsible AI utilization, and developer workflow optimization.

TECHNICAL SKILLS

Frontend & Design: React.js, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, React Hooks, Tailwind CSS, Figma, Wireframing & Prototyping

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, RESTful APIs

Tools & Platforms: Git, GitHub, VS Code, Netlify, Vercel, Chrome DevTools

PROJECTS

Admin Dashboard | React.js, Tailwind CSS, REST API

Live: <https://admin-dashboard-1580.netlify.app/>

- Engineered a responsive dashboard featuring dark/light mode toggling, sidebar navigation, dynamic charts, and modular React components.
- Implemented role-based UI controls and structured mock API data handling for seamless performance.

Scentra – E-Commerce Platform | React.js, Redux Toolkit, Tailwind CSS, REST API

Live: <https://scentra-dead-final.netlify.app/>

- Developed an e-commerce interface with dynamic product filtering, external API integration, and global cart state management using Redux Toolkit.

Responsive Landing Page | React.js, Tailwind CSS

Live: <https://responsive-landing-page-3fii.vercel.app/>

- Built a mobile-first marketing landing page with structured layout components and smooth CSS transitions.

Weather Application | React.js, REST API, Tailwind CSS

- Created an interactive weather application that fetches real-time meteorological data and updates UI state dynamically.

University Admission Form | React.js, React Hooks, Tailwind CSS

- Designed a multi-step input form with custom client-side regex validation and smooth state handling.

EDUCATION

Bachelor of Science in Computer Science

In Progress

Government Graduate College Asghar Mall, Rawalpindi

5 Courses

Introduction to AI

Maximize Productivity With
AI Tools

Discover the Art of
Prompting

Use AI Responsibly

Stay Ahead of the AI Curve

Aug 18, 2026

Muhammed Khan

has successfully completed the online Specialization

Google AI Essentials

Those who earn the Google AI Essentials Certificate have completed five courses, developed by Google, featuring hands-on practice designed to build AI skills. They are competent in using AI tools responsibly and improving productivity across their workflow.

Amanda Brophy
Global Director of
Google Career
Certificates

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.

has successfully completed the online Professional Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in UX design. They can complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback.
